Lior Mary

B.Sc. Computer Science Graduate

I am a passionate software developer with a Computer Science degree. Proficient in React.js, Express.js, MongoDB, Node.js, JavaScript, CSS, HTML, Java and SQL. A strong self-learner and motivated individual, I excel both independently and as a team player, ready to contribute to dynamic projects.

EDUCATION

2020 – 2023
The Open University of Israel – *B.Sc. Computer Science (GPA 85)*
Dean's Award for Excellence 2023

2024
Coursera – *IBM Front-End Developer Professional Certificate*

PROJECTS

- **QueenB Summer Camp Project**- Developed "The Closet," a full-stack web app using React, Node.js, Express, MongoDB and CSS Modules for managing second-hand items. Collaborated with a team under the guidance of an industry mentor to deliver a scalable solution aligned with industry standards.
- **Budgeting Allocation Website**- JavaScript, React.js, CSS and HTML.
- **"TravelTip" Website**- Travel Recommendation website using JavaScript, CSS and HTML, working with Json file.
- **"InstaPets" App**- Java language and XML on Android Studio using Api calls and database technologies like Firebase (work in couples).

VOLUNTEERING

2011 - 2012
Neta Project — *Computer Technician Intern*
- Participated biweekly in computer workshop.
- Disassembled and reassembled computers for the purpose of learning computer architecture and repair techniques.

PREVIOUS WORK EXPERIENCE

2018 - 2019
Yes — *Business Customer Service Representative*
- Collaborated within a team to meet targets.
- Utilized assertive communication to handle client interactions.

2016 - 2018
Israel Defense Force — *Air Force Operations Specialist*
- Provided technical support for the Air Force's technological system.
- Worked under pressure to ensure system reliability.
- Planned and designed system features and functionalities.
